## WINNER BY DESIGN

*On national and international championships as well as out in the field, shooters and hunters from around the world experience a groundbreaking shotgun that has been designed to win: the Blaser F3. In an innovation process that started from scratch we brought both gun ergonomics and technology to perfection. Every detail has been fine-tuned to support the shooters intuition for a successful shot. The F3 flows smoothly when mounting and shows an amazingly calm, controlled behavior when shooting. The F3 trigger turns your thought impulse into igniting mechanics without any delay. In short, the F3 brings ambitious shotgun shooting to the point.*

*Find out more about our winner shotgun!  
Test the F3 and discover your full potential as a shooter!*

# The Blaser Mission

## DRIVEN BY PASSION

Hunting may be one of the oldest aspirations of mankind, but we always have to prepare for new challenges. It is important that we continually refine our equipment and pioneer new technology. This is our passion.

## SHAPED BY INTELLIGENCE

Leading the way through innovation, we are the driving force in the international gun industry. Fifty years of expertise have sharpened our senses for intelligent advances. However, we never lose sight of our ethical commitment.

## POWERED BY PERFORMANCE

Everybody who works at Blaser shares the same enthusiasm for hunting and sport shooting. But we all have different talents. It is the diversity of personalities and seamless blend of skills that empower the company's continued success.

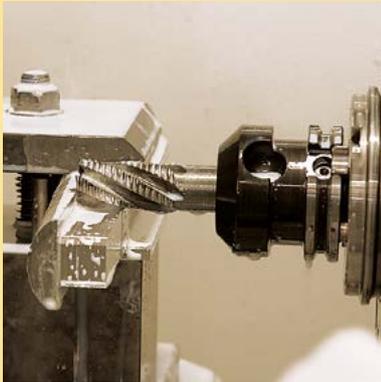

## FOR THE LOVE OF DETAIL

*At every step of design and manufacturing, we strive for excellence. However, it is by adding character to our rifles and shotguns that we achieve true perfection. Innovation paired with detailed creativity – that is our formula for timeless gun making.*

# Values and Culture

## MILLED FROM A SOLID PIECE

Manufacturing gun parts from a whole solid piece guarantees quality, reliability and durability. Intricate production processes on high-end CNC machines ensure minimal tolerances and consistent shooting precision.

## QUALITY COMPONENTS

In the hands of a Blaser gunsmith high-grade steel and precious walnut blend into a piece of beauty and lasting value. This commitment to excellence makes every Blaser rifle a legacy for generations to come.

## SENSE OF TRADITION

With a deep appreciation for traditional craftsmanship, we shape today's hunting culture. Highly qualified gunsmiths, gun stockers and engravers turn every rifle into a masterpiece that expresses the personality and passion of the hunter who owns it.

# Get to the Point

Mental fitness and physical control are the keys to good shotgun shooting. Plus: a shotgun that supports your intuition for success.

# Igniting Thoughts

IBS: the quickest way from the thought impulse to hitting the target

### 1 BLASER F3 TRIGGER

Within a split second the F3-trigger turns your thought impulse into igniting mechanics. It breaks crisp as glass at 1,400 grams with an extremely short travel. Thus the F3 offers you the best conditions to achieve the ideal forward allowance without any delay and tap your full potential. The barrel selector is located right in front of the trigger in a convenient position. The purely mechanical, selective single trigger function is independent from recoil. The trigger blade allows stepless adjustment in length. It is positioned exactly in the shooting fingers direction of force. The finger automatically takes on the right angle for precisely pulling the trigger.

### 2 BLASER IBS®: ANTI-DOUBLE-SYSTEM

The Inertial Block System reliably prevents fan firing, which means that the unintentional firing of a second shot is virtually impossible. Many conventional single trigger functions interfere with the ideal trigger pull. Thanks to IBS® the F3 trigger combines the highest possible safety with the best possible trigger characteristics.

### 3 LINEAR GUIDANCE OF FIRING PIN

The linear guidance of the striker and firing pin allows for the best possible use of the kinetic energy and thus for lightning fast ignition.

# Perfectly Balanced

The balancer system allows for individual adjustment of the F3's weight distribution.

## 1 BLASER BALANCER

When you are swinging and the barrel points exactly where your eye focuses, you can be sure that the weight distribution of your shotgun is perfectly adjusted to your needs. To achieve the ideal performance the bulk should lie right between your hands and the overall weight distribution should be fine-tuned to the balance that feels best for you. Two F3 features make sure that the balance of your F3 meets your personal preferences: the balancer and the deep position of the centre bores. The Blaser balancer system not only allows the adjustment of weight distribution to your personal needs, but also to your shooting style: Swing-Through, Pull-Away, Sustained-Lead or Move-Mount-Shoot.

The Blaser balancer system consists of two components: the stock balancer and the barrel balancer. The stock balancer is a threaded rod that can be equipped with one or two weight cylinders.

The stock balancer allows you to increase the total weight up to 170 grams.

## 2 TRIPLEX® BORE DESIGN

Three construction characteristics collude to provide an optimized muzzle velocity, a homogenous shot pattern and a moderate recoil.

- Innovative, extremely flat forcing cone with an angle of 2.5°. The shot passes into the cylindrical barrel as smooth as possible with minimal deformation and without any dangerous increase of pressure.
- "Overbore" inside diameter of 18.65 mm (0.735")
- Gauge 12/76 steel shot with additional steel-shot proofing

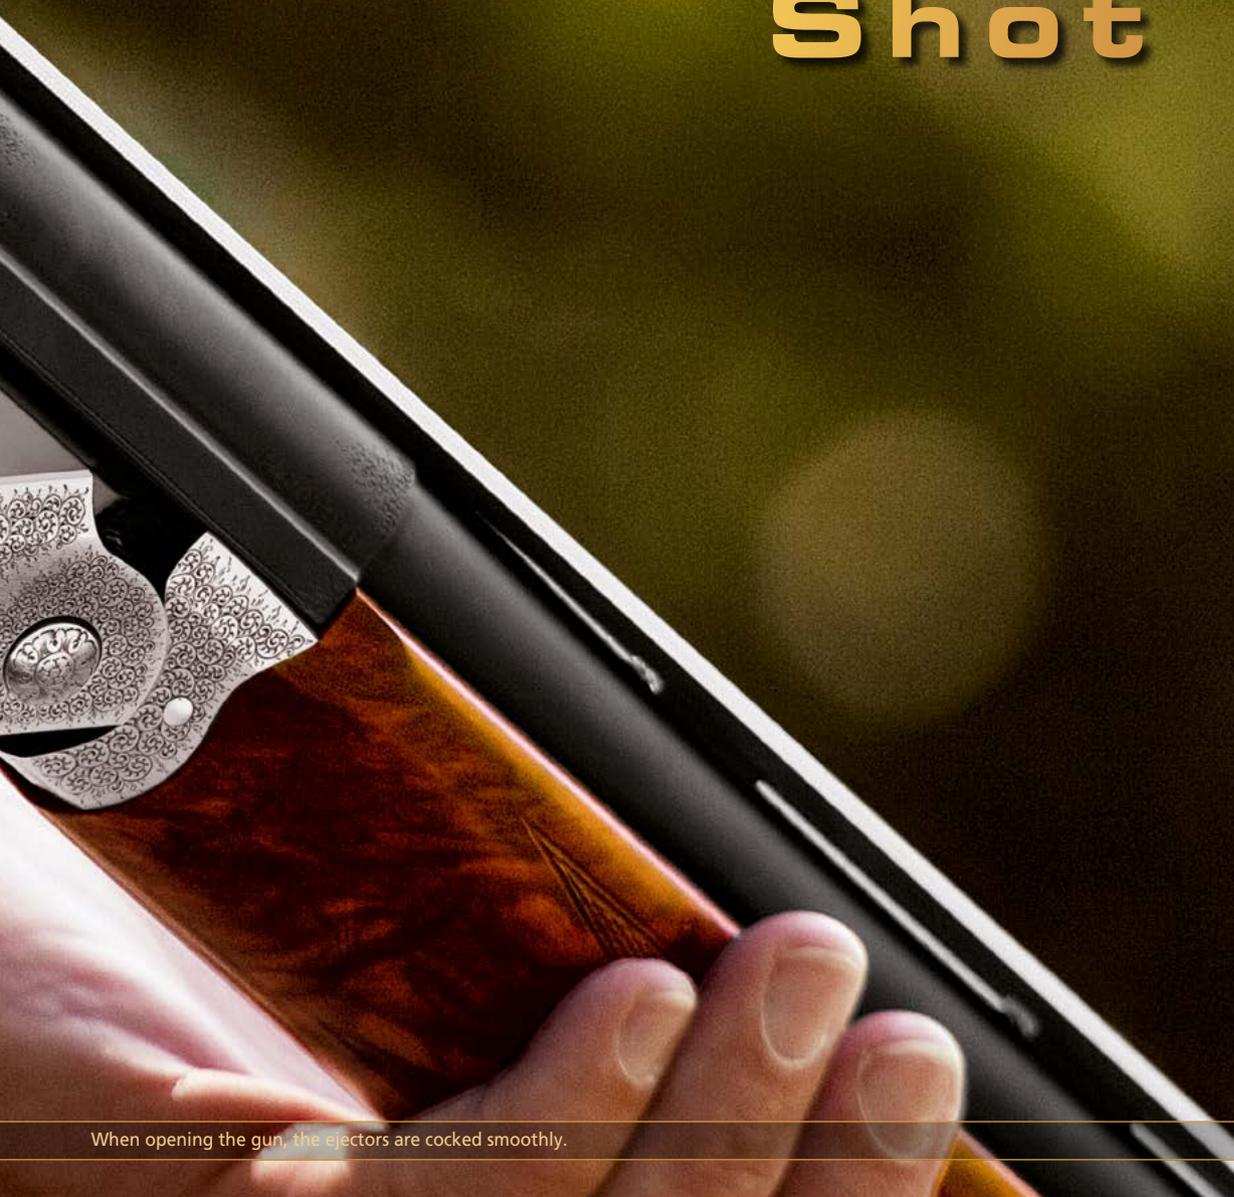

It consists of the stock balancer with two weight cylinders and the barrel balancer.

Patented EBS®-System: Firing the shotgun activates the ejector pin of the barrel with which the shot is released.

# The Calm Before the Shot

When opening the gun, the ejectors are cocked smoothly.

## 1 EBS®: THE INNOVATIVE EJECTION SYSTEM

To some extent whether the shot will be successful or not is decided even before mounting. Smooth movements, controlled by intuition and precise mechanical operations are the winning formula. The process starts with closing the shotgun. Conventional ejector systems cock their ejector springs when the gun is closed. Having to overcome this resistance interferes with the smooth flow of your movements and your concentration.

The EBS® system activates the ejectors when the shot is fired and cocks them when opening the gun. The ejector springs are always decocked when storing the gun, so that spring fatigue is prevented. The resistance when closing the gun is always kept at a minimum, whether the ejectors have been activated or not.

## 2 SMOOTH HINGE OPERATION

The extremely soft closing of the barrels helps you to focus your concentration on nothing else but the shot.

# Experience Quality

## 1 PREMIUM QUALITY

The superior quality of the F3's mechanical parts is as uncompromising as its design. Innovative, computer-controlled heat treatment such as the nitrocarburisation of the F3 action lead to outstanding resistance characteristics.

## 2 SOLID LOCK-UP

The solid lock-up with a generous locking area is combined with a lock-plate in the bottom of the action providing utmost locking safety.

## 3 MINIMUM STRAIN

Minimal strain on the lock during shooting and maximum durability result from the optimized geometry of the deep positioned centre bores and the high positioned hinge pin.

## 4 STEEL AND MAGNUM PROOFING

The F3 is designed for the use of steel shot and officially steel proofed (Magnum proof with additional steel proofing).

# F3 GAME

F3 Game

F3 Game Luxus

F3 Game Attaché

F3 Game Grand Luxe

F3 Game Baronesse

Well balanced weight distribution, low weight and stylish design best describe the winning formula which makes the F3 Game an excellent choice for the passionate hunter or wingshooter (Trap and Skeet).

- ▶ Sporting stock
- ▶ Slender, classic English Style forearm design
- ▶ Slip rubber recoil pad for optimum protection of the shoulder, with synthetic slip insert on the top of the pad for a smooth gun mount
- ▶ Stock balancer – optional extra
- ▶ Classic front bead made of nickel silver

F3 Game Luxus with wood grade 5, English Style forearm

# F3 COMPETITION SPORTING

F3 Competition Sporting

F3 Competition Sporting Luxus

F3 Competition Sporting Attaché

F3 Competition Sporting Grand Luxe

F3 Competition Sporting Baronesse

Three different barrel lengths for Sporting, Compak Sporting and Olympic Skeet make the F3 Competition Sporting the interdisciplinary partner of ambitious sports shooters.

All barrel lengths have approximately the same weight and balance characteristics. No further adjustments other than changing the barrels are necessary.

- ▶ Competition barrels
- ▶ Stock balancer
- ▶ Schnabel forearm
- ▶ Slip rubber recoil pad for optimum protection of the shoulder, with synthetic slip insert on the top of the pad for a smooth gun mount
- ▶ Prepared for barrel balancer
- ▶ HIVIZ® bead kit with interchangeable red bead including additional colors and sizes as well as a required key

Incl. kit with interchangeable beads

Optional: Adjustable comb  
Adjustable pad

# F3 GAME COMPETITION

F3 Game Competition

F3 Game Competition Luxus

F3 Game Competition Attaché

F3 Game Competition Grand Luxe

F3 Game Competition Baronesse

Merging specific hunting qualities with competition properties makes a perfect shotgun for hunting, Trap, Skeet and Compak Sporting as well as occasional Sporting. The low weight desired for use in the field can easily be increased by 170 grams if needed by using balancer weights on the barrel and in the stock – a key advantage for "Combined Game Shooting".

- ▶ Sporting stock
- ▶ Schnabel forearm
- ▶ Slip rubber recoil pad for optimum protection of the shoulder, with synthetic slip insert on the top of the pad for a smooth gun mount
- ▶ Barrel and stock balancer
- ▶ HIVIZ® bead kit with interchangeable red bead including additional colors and sizes as well as a required key

# F3 SUPER TRAP

F3 SuperTrap

F3 SuperTrap Luxus

F3 SuperTrap Attaché

F3 SuperTrap Grand Luxe

F3 SuperTrap Baronesse

Due to the perfect combination of overall weight, balance and weight distribution the F3 SuperTrap is the champions companion par excellence. You can choose the Over & Under (O&U) version, the Under-Single (USGL) version or the combination of both, the F3 SuperTrap Combo (O&U + USGL). Thanks to the large adjustment range of the rib, demanding Trap shooters can use the F3 to its full potential and adjust the pattern by lifting or lowering the rib according to their individual requirements.

- ▶ Semi Beaver Tail forearm with grip
- ▶ Adjustable rib
- ▶ Stock with adjustable comb, varnish finish
- ▶ KickEez® rubber recoil pad
- ▶ O&U barrel 81 cm (32"): factory-set to a pattern of 70:30 (sighting plane "Figure 8")
- ▶ USGL barrel 86 cm (34"): factory-set to a pattern of 85:15 (sighting plane "Figure 8")
- ▶ Midbead and front bead

# F3 ATTACHÉ

## F3 ATTACHÉ

One of the particularly impressive shotgun creations manufactured by Blaser that epitomizes classic elegance. The velvet black matt finish of all metal parts perfectly blends with the natural beauty of exquisitely grained Turkish Walnut. The handcrafted highlights made of real gold round off its class appearance.

Every F3 model is also available as Attaché version. Standard features include:

- ▶ Velvet black finish on action and barrels
- ▶ Model name „F3“ and safety markings „F“ and „S“ inlaid by hand in solid gold
- ▶ Exquisite Caucasian walnut wood, grade 7
- ▶ Gold-colored trigger
- ▶ Titanium-nitrided choketubes, 5 screw-in chokes, choke box and choke wrench
- ▶ F3 ABS shotgun case with separate compartments for exchangeable barrel and accessories.

Outer dimensions: 89 x 30 x 21 cm  
(35" x 12" x 8")

**F3** GRAND LUXE

F3 Competition Grand Luxe

### F3 GRAND LUXE

Partridges and pheasants, embedded in a filling of leaf arabesques and Old German arabesques, adorn the side plates of the F3 Grand Luxe.

Every F3 model is also available as Grand Luxe version. Standard features include:

- ▶ Selected Caucasian walnut wood, grade 5
- ▶ Blaser F3 case for shotgun and accessories

**F3 BARONESSE**

### F3 BARONESSE

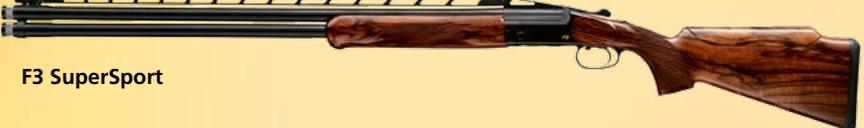

Elegant long side plates with elaborate engravings characterize the F3 Baronesse. Select between ducks, pheasants or Fine English Scroll.

Every F3 model is also available as Baronesse version. Standard features include:

- ▶ Selected Caucasian walnut wood, grade 7
- ▶ Gold-colored Trigger
- ▶ Titanium-nitrided choketubes (gold-colored), 5 screw-in chokes, choke box and choke wrench
- ▶ F3 ABS shotgun case with separate compartments for exchangeable barrel and accessories.

Outer dimensions: 89 x 30 x 21 cm  
(35" x 12" x 8")

# Edle Schafthölzer

## KUNSTWERKE DER NATUR

Erstklassiges Nussbaumholz von bis zu 300 Jahre alten Bäumen verleiht dem Schaft seinen einzigartigen Ausdruck. Es stammt aus den Hochlagen des Kaukasus, wo kalte, lange Winter vorherrschen, die den Baum nur langsam wachsen lassen. Das prägt den Charakter des Holzes. Es wird nicht nur besonders widerstandsfähig, sondern bezaubert auch durch eine sehr feine, wunderschöne Maserung.

Bei der Holzauswahl haben Sie die Möglichkeit, sich zwischen elf Qualitätsstufen zu entscheiden. Bei exklusiven Vorstellungen laden wir Sie nach Terminabsprache gerne in unser Schaftlager ein.

# ACCESSORIES

A |

1 | Twill-leather covers

A |

2 | Cordura® covers

3 | ABS shotgun case

## 1 | TWILL-LEATHER COVERS

Fine twill with calf leather borders and soft, quilted lining. Adjustable shoulder strap, reinforced handles.

**A:** Suitable for all popular shotgun models (maximum barrel length 81 cm/32"). With zipped outer pocket.

Total length: 135cm (53").

## 2 | CORDURA® COVERS

Rugged fibre reliably protects the gun. Zipped outer pockets for hunting accessories, detachable carrying strap.

**A:** Suitable for all popular shotgun models (maximum barrel length 81 cm/32"). With zipped outer pocket.

Total length: 135cm (53").

## 3 | ABS SHOTGUN CASE

Safe, comfortable and discreet: the perfect, lightweight transport case for traveling by car and plane. The ABS shell reliably protects the shotgun against impacts and shocks. It is the safe protection for all F3 shotguns with a maximum barrel length of 81 cm (32"). Special compartments provide plenty of space for spare barrel, screw-in chokes, shooting glasses, ear protection and other accessories. Separate compartment for spare barrel. Rounded corners with leather edgings. Elaborate velvet on the inside. 3 combination locks.  
L x W x H: 89 x 30 x 12 cm (35" x 11.8" x 4.7")

4 + 5 | Leather shotgun cases

#### 4 | F3 ORIGINAL „OAK & LEATHER“ SHOTGUN CASE

The classic high-grade home for a single F3 or a pair. The leather case is handmade and individually customized. Reddish-brown leather, quality brass fittings and an elegant design give the case that classically stylish look. Softly padded on the inside. Additional document section under the cover. The case is delivered in a protective canvas cover. L x W x H: 82 x 30 x 9.5 cm (32.3" x 11.8" x 3.7")

#### 5 | F3 LEATHER CASE

The elegant, handy and safe solution. Fine, Cognac-colored leather encases the sturdy case body. The F3 shotgun and its accessories lie on soft dark-blue velvet, well-protected and slide-proof during transport.

6 | Hunting travel trolley

- Suitable for shotgun with accessories. LxWxH: 87 x 20.5 x 9cm (34.2" x 8" x 3.5").
- Suitable for shotgun with exchange barrels and accessories. LxWxH: 87 x 26.5 x 9cm (34.2" x 10.4" x 3.5"). (no fig.)

#### 6 | HUNTING TRAVEL TROLLEY

The worldwide tried and tested hunting travel trolley is both handy and attractive. It is made from premium, extremely resistant Cordura®. Elegant leather applications accomplish its appearance. The thought-out pocket and compartment system offers

optimum storage possibilities. This is how your luggage becomes one compact, easy-to-transport unit.

Foldaway telescopic handle, large, ball-bearing wheels, fold-out support pedestal, wide carrying shoulder straps, adjustable in length, carrying handle with rubber reinforcements on the head side, shock-proof buckles. Zippered pockets and document compartment on the inside. Cordura® canvas with five straps which are adjustable in length, to safely fasten the rifle case on top of the trolley. TSA combination lock. Outer dimensions LxWxH: 86x38x40cm (33.9"x15"x15.7"). Main compartment LxWxH: 82x37x22cm (32.2"x14.5"x8.6"). Two compartments in the cover LxWxH: 41x36x10cm (16.1"x14.2"x4"). Total volume: approx. 95.5 l.

1 – 3 | Care products

4 | Blaser SportTac™ by 3M™

## 1 | GUN OIL

Maximum corrosion protection even in wet and cold conditions as well as in heat and humidity or when in contact with salt-water or sweaty hands. Neutral oil, remains liquid in temperatures up to -50°C. The oil does not resinify, is very liquid and disperses excellently. 200ml spray can.

## 2 | GUN STOCK CARE

Optimum protection, natural ingredients. Easy to apply and rub in. Odor-free after drying. 150ml can.

## 3 | GUN GREASE (ISOFLEX® TOPAS L32)

Suitable for both: extremely low and extremely high temperature ranges (approx. -60 °C/-76 °F to +130 °C/266 °F). Recommended for the use with bolt guide rails. 4g tube.

## 4 | BLASER SPORTTAC™ BY 3M™

Professional electronic ear defenders, specially developed for hunting and shooting. The soft, non-slip sealing rings ensure a perfect fit and excellent comfort, and the headband can be folded for ease of transport. The dynamically adjustable sound attenuation can be individually adapted to the noise level. Extremely elegant look, with painted ear cups and printed Argali logo.

1 |

1 | Blaser shooting glasses

## 1 | BLASER SHOOTING GLASSES

Extremely low weight, robust design and sporty elegance. The adjustable nose pads ensure excellent comfort. You will hardly notice that you are wearing glasses. Three interchangeable lenses (dark grey, yellow-orange and red) with anti-fog coating offer optimal visibility in varying light and

weather conditions. The Blaser shooting glasses fulfill the highest optic and safety standards of the US military. A cleaning cloth, an elastic strap and a form-stable Cordura case are included in the scope of delivery.

3 |

2 | Blaser Barrel Rest

## 2 | BLASER BARREL REST

Practical protection for guns and shoes when resting your rifle on your shoe. The barrel rest can be conveniently attached to your shoelaces using the snap fastener. Rest surface made of real leather.

# ACCESSORIES

## 1 | F3 RAIN JACKET „PARCOURS“

Sporty F3 rain jacket made from water-resistant, breathable function material. Hood in the neck easily stowed. Front zip, concealed by a Velcro strip, with chin protection.

## 2 | F3 RAMSHELL JACKET „SPORTING“

Sporty elegant Softshell jacket made from water-repellent, breathable RAMShell material. Very comfortable to wear, due to soft fleece inside.

## 3 | F3 SHOOTING WAISTCOAT „SUPER SPORT“

Sporty shooting waistcoat with classical V-neckline and breathable net inserts.

## 4 | F3 T-SHIRT „PULL“

Sporty F3 T-Shirt with slight V-neckline in sophisticated design. Quick-drying, functional material with UV protection and anti-odour equipment. With F3 logo on the arm and Blaser lettering on the top at the back.

## 5 | F3 POLO-SHIRT „COMPETITION“

Exclusive F3 polo-shirt with zip on the classic polo neck. Very comfortable to wear due to quick-drying, functional material with UV protection and anti-odour equipment.

## 6 | F3 CAP „TARGET“

Practical cap made from high-quality cotton in typical F3 design. Large Logostick on the front. Easily adaptable due to a metal clip that is adjustable in size. With three ventilation holes on the left and right side.

## 7 | F3 HANDTOWEL „TRAP“

Handtowel folded three times, made from high-quality, extra absorbent cotton. Practical transportation by incorporated eyes with aluminium carabines for attachment to the F3 shooting waistcoat. With embroidered Blaser and F3 logo.

## MADE FOR ACTIVE HUNTING

Superior quality and sophisticated design also characterize Blaser active outfits. Each garment represents the highest level of modern textile technology. Special care has been taken to create practical details such as pockets, trimmings and decorative elements that underline the stylish hunting look. Midlayer-jackets, shirts made from first class fleece to wear as base or top layers as well as matching accessories, ranging from sturdy belts to fully lined knitted hats and warm thermo caps, complement the broad range. Now fully revised and optimized, the Blaser active outfits collection sets new standards for high class hunting clothes with an extremely versatile edge. Functional, lightweight and comfortable: these styles have already become casual classics. Blaser active outfits represent a unique combination of consistent quality and hunting tradition with high performance functionality and modern looks. The collection is available exclusively at your authorized Blaser dealer.
